A L E G A C Y   O F   D E S I G N

M A N I F E S T O

Artiscape is a design brand that places art at the heart of life. For us, every project is an opportunity to go beyond the ordinary.

In our original designs shaped by craftsmanship, we blend our aesthetic vision with the essence of materials; achieving flawless craftsmanship in the details and a timeless presence in the whole.

We don't just decorate spaces — we give them identity, creating environments that inspire, transform, and make a difference.

Artiscape is a world crafted for those who believe in the limitless power of imagination.

## ARTISCAPE

Artiscape embodies the personal design practice of Kerim Çarmıklı, functioning both as a brand and as a gallery. On one hand, it presents Çarmıklı's signed collectible pieces to an international audience; on the other, it develops its own line of "decor" products, extending the brand's aesthetic to a wider audience.

At the same time, Artiscape reflects Çarmıklı's long-standing experience in interior architecture. Through carefully selected projects, it approaches spatial design as a holistic discipline, integrating furniture, objects, and art into the environment.

Today, Artiscape operates on three distinct levels:

Kerim Çarmıklı Signature Collections: Furniture, lighting, and mirrors – limited edition works of art.

Artiscape Decor: Accessories and objects produced under the brand name – refined pieces that make the Artiscape aesthetic more accessible.

Interior Architecture Services: Projects that bring Çarmıklı's architectural expertise and design vision into living spaces.

With this layered identity, Artiscape stands as both a brand and a gallery – a design platform that unites the multiple dimensions of Kerim Çarmıklı's creative vision.

THE RESULT IS A COLLECTION OF UNIQUE FURNITURE PIECES THAT ARE AS MUCH WORKS OF ART AS THEY ARE FUNCTIONAL CREATIONS.

## KERİM ÇARMIKLI

After completing his education in interior architecture, Kerim Çarmıklı worked on numerous private projects in Turkey and abroad. Blending architectural knowledge with art and craft, he gradually developed furniture design as a personal field of expression.

Each piece of furniture, lighting, and mirror is the result of his experimental dialogue with materials, shaped through sculptural forms and refined craftsmanship. Bronze, marble, and wood carry traces of the past while being reinterpreted with a contemporary aesthetic in his hands. Signed by Çarmıklı, these works are produced in limited editions and hold true collectible value.

Today, Kerim Çarmıklı positions his designs at the blurred threshold between art and function, presenting furniture not merely as utilitarian objects but as narratives and collectible works of art.

## MELİS ÇARMIKLI

Melis Çarmıklı oversees the administrative and organizational structure of Artiscape, ensuring the brand moves forward with stability and consistency. With her background in law and her analytical perspective, she brings discipline and continuity to its processes.

As Kerim Çarmıklı's life partner, she also plays the essential role of complementing his creative journey. While Kerim focuses on his designs, Melis takes on the responsibilities behind the scenes, allowing the brand to function seamlessly. In this way, Artiscape becomes not only the result of an individual vision, but the balance built together.

In Kerim Çarmıklı's designs, everything begins with the essence of the material. Bronze, marble, glass, fabric, and wood are individually crafted through traditional artisanal techniques, each finding life with its unique texture. None of the pieces are products of mass production; every detail is shaped by Çarmıklı's aesthetic vision, gaining its own identity.

From the modeling process to surface textures, from patina techniques to material combinations, every

stage is handled with precision. The enduring patina of bronze, the natural veins of marble, the clarity of glass, the warmth of wood, and the texture of fabric come together to form a unique harmony.

Çarmıklı's creations are not merely functional objects; they are special works that reveal the soul of the material, blending with craftsmanship and telling their own distinct stories.

## BREATHING LIFE INTO MATERIALS

ÇARMIKLI'S DESIGNS ARE NOT MERELY FUNCTIONAL OBJECTS; THEY ARE DISTINCTIVE WORKS THAT REVEAL THE SOUL OF EACH MATERIAL, BLENDING CRAFTSMANSHIP WITH NARRATIVE, AND EACH TELLING ITS OWN STORY.

Candy Coffee Table continues Kerim Çarmıklı's sculptural exploration of molten sugar forms, where material transforms into a timeless collectible. The aged aluminum bases, shaped by the artist's hands and cast into permanence, express both softness and weight — organic volumes that anchor the composition with quiet monumentality.

In dialogue with its polished marble top, the piece becomes a synthesis of fleeting inspiration and enduring form. As matter and geometry converge, the table asserts itself not only as functional furniture but also as an artwork — a limited-edition object where materiality becomes memory.

Draft Chair was inspired by the intersecting lines found in architectural projects and sketches. The rods, first hand-shaped in clay by Kerim Çarmıklı, became a three-dimensional interpretation of those crossings. Bearing the artist's tactile imprints, they were later cast in bronze, transforming ephemeral marks into a permanent structure. The bronze frame forms a sculptural lattice of intersecting lines, while the upholstered cushions balance strength with comfort. Draft Chair emerges as a timeless piece of furniture — an embodiment of both architectural abstraction and the artist's hand.

The Descent Chair takes its name and inspiration from the graceful descent of a parachute—its edges drawn down by weighted points. Echoing this imagery, the chair's seat arches like a suspended canopy, its corners grounded by gleaming solid bronze spheres.

A sculptural backrest with a circular opening, paired with armrests carved from solid American walnut, add both warmth and contrast to the design. Upholstered in textured fabric, the chair invites touch and comfort while retaining a bold, artful presence. The Descent Chair is not only a place to sit but also a narrative object—capturing the poetry of weight, gravity, and balance, and translating it into a luxurious piece of modern design.

Core Sculpture unites the two faces of bronze. The textured surfaces preserve the artist's hand marks and the raw nature of the material, deepened through dark patina to create a quiet and grounding backdrop.

Along the edges, polished lines catch the light, emphasizing movement and guiding the eye toward the center. At the core, a radiant sphere embodies pure energy and concentrated essence.

Scars of Time Sculpture interprets the human face through the traces of time. The fissures and marks across the surface embody an aesthetic that rejects perfection and celebrates the dignity of what has been lived. The bronze has been patinated with special techniques to achieve green tones, evoking the inevitable transformation of matter in nature. The work is not only a face — it is time itself. Each coaster is individually handcrafted in solid bronze, reflecting the unique textures and artisanal details of our design process.

Presented in natural bronze or patinated finishes, the collection unites functionality with a sculptural design language.

Designed and produced by Kerim Çarmıklı.
